

SE 494
Spring 2018
Final Portfolio Submission
Due date: May 4, 2018

Submission of portfolio link through Canvas

Please incorporate all the suggested changes based on your prefinal portfolio submission. Submit a link to your portfolio site.

Link: <https://austinkerr42.github.io/seniorDesign.html>

Feedback from prefinal portfolio submission:

- Please open 'seniorDesign.html' in a browser to view the page. All links are to pdf's in the project folder and should function from the browser view.
- I am not able to get into any of those links you have provided for your reflections. It says file not found. Please check that.
- For the final submission please send a link to your website having all the necessary components for this course.
- I had to check your portfolio template assignment for the link.
- The PDF document of your project submissions still has no final designs for projects. If you have any photos/videos/links, please attach them on your website.
- Include a career objective section.
